This advanced course is designed for GPs who are experienced and who are embarking on full mouth rehabilitation cases. It will take you through the treatment planning stages and all of the surgical and restorative phases.

Course Programme:

- Assessment of existing dentition
- Diagnosis and treatment planning
- Use of CT scans and special tests
- Liaising with the laboratory
- Provisionalization during the augmentation phases
- Use of immediate placement techniques
- Surgical protocols
- Restorative protocols
- Reorganised versus conformative occlusion

6 Day Course:

Dates to be individualised for a group of 8 over 6 months.

1 day per month.

Course Fees:

£450 per day inc VAT to include course notes & lunch.
